

GAURAV PRASAD SHAH

COMPUTER SCIENCE ENGINEERING STUDENT

KPR Institute of Engineering and Technology | II CS-E | Roll No. 25CS319

Coimbatore, Tamil Nadu • gauravprasadshah123@gmail.com • LinkedIn: linkedin.com/in/gaurav-shah-a6637135a

CAREER OBJECTIVE

Computer Science Engineering student with experience working on academic and hackathon projects involving web development, UI design, and technology-based solutions. Interested in software development, artificial intelligence, cloud computing, and modern web technologies. Eager to apply technical and problem-solving skills to develop practical solutions for real-world challenges.

EDUCATION

Bachelor of Engineering / Technology in Computer Science Engineering

KPR Institute of Engineering and Technology | Class & Section: II CS-E | Roll No.: 25CS319

PROJECTS

MedZone — Patient Case-Taking Software | Smart India Hackathon 2026 | Problem Statement 26047

- Contributed to a digital patient case-taking solution aimed at reducing clinical history collection time in OPDs.
- Worked on a voice- and touch-based patient intake concept with multilingual interaction.
- Proposed document-scanning functionality for extracting relevant patient information.
- Designed automated suggestions using predefined data and JavaScript-based matching.
- Contributed to workflow design, UI concepts, prototype visuals, and SIH presentation materials.
- **Technologies:** Next.js, JavaScript, HTML, CSS.

KPRIET Smart Campus Portal | University Technology Platform Concept

- Designed a smart-campus platform integrating academic and administrative services.
- Proposed modules for attendance monitoring, academic performance analysis, campus navigation, events, and student compliance.
- Designed a dashboard-based user interface and technology demonstration concept.
- Proposed predictive attendance-deficit calculation and automated event reminders.

TECHNICAL SKILLS

Programming	JavaScript
Web Development	Next.js, HTML, CSS, JavaScript
Development Concepts	Web Applications, UI/UX, Data Structures, Algorithmic Thinking
AI & Innovation	AI-assisted applications, conversational interfaces, document processing concepts
Tools	Git, GitHub, PowerPoint
Design & Presentation	UI Prototyping, Technical Presentation, Visual Content Creation

HACKATHONS & INNOVATION

Smart India Hackathon 2026 — MedZone: Patient Case-Taking Software | Problem Statement 26047 | Ministry of Ayush

- Contributed to problem analysis, solution design, technical approach, prototype planning, and presentation development.
- Worked on converting the healthcare problem statement into a practical software solution.
- Prepared technical workflows, feasibility concepts, impact analysis, and research/reference sections.

CERTIFICATIONS & ACHIEVEMENTS

- AWS — Cloud computing learning/certification credentials.
- MongoDB — Database-focused learning/certification credentials.
- Fortinet — Cybersecurity-focused learning/certification credentials.
- Participated in Smart India Hackathon 2026 project development and presentation.
- Participated in technical and innovation activities.

PROFESSIONAL INTERESTS

Software Development • Artificial Intelligence • Web Development • Cloud Computing • Cybersecurity • Database Technologies • Healthcare Technology • UI/UX Design • Hackathons & Innovation

SOFT SKILLS

Problem Solving • Teamwork • Communication • Technical Presentation • Creativity • Project Collaboration • Adaptability
